OBJECTIVE

Motivated and detail-oriented software development professional with a Master's in Computer Applications and experience in analyzing user requirements, designing systems, coding, and maintaining software solutions. Eager to contribute technical and problem-solving skills in a collaborative environment to deliver high-quality software products.

EDUCATION

MIT World Peace University	CGPA - 7.49	**Pune, 411038, Maharashtra**
Master in Computer Application		*08/2022 to 07/2024*
Swami Vivekananda Institute of Technology	CGPA - 7.92	**Balaghat, 481001, Madhyapradesh**
Bachelors in Computer Application		*07/2018 to 06/2021*

TECHNICAL SKILLS

Programming Languages: C++, Java.
Web Technology : HTML, CSS, Javascript.
Libraries and Framework: Spring, React, RESTful API, Kubernetes, Docker, CICD tools.
Database : MySQL, SQLite, RDBMS.
Toos/Methodology : Git, SDLC, OOP's, Agile, Power BI, MS Office, AWS.
Data Structure and Algorithms.
IDE's : VSCode, Android Studio, GitHub.

EXPERIENCE

Data Analyst Intern
MIT Google Developer Student Club   -   Pune   **02/2024 to 06/2024**

- Automates data collection from e-commerce websites using web scraping techniques.
- Analyzes pricing trends, customer reviews, and product ratings with statistical and NLP methods.
- Visualizes analysis results through interactive charts, graphs, and dashboards for easy interpretation.
- Provides actionable insights for optimizing pricing strategies and enhancing customer satisfaction.

PROJECTS

Healthcare Android Application   *09/2023 to 11/2023*
MIT World Peace University, Pune, India

- *Developed a comprehensive healthcare application facilitating doctor-patient interactions.*
- *Utilized Java and SQLite for backend processes.*

React-Food Order Application   *02/2023 to 05/2023*
MIT World Peace University, Pune, India

- Created a food ordering web application using React and integrated APIs.
- Implemented MySQL for managing orders and customer data.

CERTIFICATE/COURSE

- Completed "React - Complete Guide" course on Udemy, gaining comprehensive knowledge and skills in React development.
- C/C++ Offline Training – CodeMantra (Indore)
- Certification in 'Web Development' using HTML, CSS, and JavaScript with IBM Learnings from edX.
- Project Management for Beginers from (Udemy).

KEY COMPETENCIES

- Analyse Specifications: Defined user requirements for the development of software solutions in various academic and personal projects.
- Design Systems & Code: Designed and developed software solutions that adhered to project standards. Proactively proposed viable technical solutions to enhance user experiences.
- Testing & Maintenance: Conducted rigorous testing (unit, package, and performance) to ensure product quality, including troubleshooting and debugging of existing solutions.
- Documentation: Created and maintained project documentation, ensuring clarity for both users and development teams

ACHIEVEMENTS

- Successfully developed and deployed multiple projects as part of academic curriculum.
- Recognized for strong problem-solving abilities and proficiency in programming during internship.

INTEREST

- Playing Cricket, Gardening, Listening Music, Travelling

LANGUAGES

- Hindi, English, Marathi.
